Thesis – link sent by Ross Herrington, 3 March 2015

I came across a 1995 UBC Master’s thesis in Advanced Studies in Architecture written by a David P. Monteyne (an Associate Professor, Faculty of Environmental Design, University of Calgary, since 2011): “The Construction of Buildings and Histories: Hudson’s Bay Company Department Stores, 1912-26.” I’ve only browsed through it but it’s quite fascinating. It’s a biggish file at 20MB so can’t forward it to you directly but I think you can find it at:
