
WINDOWS CONSERVATION FOR HISTORIC PLACES

Dates and Locations:

Tuesday May 1st and Wednesday May 2nd, 2007
Administration Building, City Hall Complex,
Winnipeg, Manitoba

Sponsor:

Parks Canada Agency and the City of Winnipeg Historical Buildings Committee

Course Description:

This workshop will provide an overview to the maintenance and repair of historic wooden and metal windows. Course material includes an introduction to the history of windows; inspection and diagnosis; performance and life-cycle costing; security and protection. There will also be an introduction to the "Standards and Guidelines for the Conservation of Historic Places". Day two will feature a variety of hands-on demonstrations of tools and techniques for the repair and maintenance of historic windows.

Learning Objectives:

- Each participant will receive a good introduction to sources of information for general and specific advice on technical aspects of heritage building conservation with an on emphasis windows conservation.
- Each participant will be able to recognise heritage values in windows through a review of the history of materials, technologies and design.
- Each participant will receive a good introduction to sources of information for general and specific advice on technical aspects of heritage building conservation with an on emphasis windows conservation.

Fees:

There is a charge of \$125 for this workshop, which includes course fees, lunch and refreshment breaks and a course workbook. There is no charge for representatives of National Historic Sites not owned by the federal government. Some travel subsidies may be available for representatives of these sites.
