11. ANS Patch

I just got this photo from a conversation I was having with the Great grandson of a RAF member who trained in Rivers during the summer of 1942. He has this patch that his Great Grand Father received (likely purchased) while at the Central Navigation School that had just been formed from 1 Air Navigation School just before his Great Grandfather got there. 1944 Kenton plane crash

In the winter of 1944, an RCAF Cessna Crane crash landed in a field near Kenton, MB. They towed it into town, repaired it on the main street in front of the Lake of the Woods elevator and the Red and White store. Then it taxied down the main street, and took off, on skis, from a grain field on the east side of town.
