First C-130 to Land at Rivers

The first arrival was a US Air Force C-130 flown by a RCAF exchange officer. It was parked at the Air Supply School hanger and we took advantage of putting stuff into the cargo bay, lashing it down, taking pictures and taking it out again. As far as I can remember, we didn't fly any of the loads. Those I can remember pictured were: Cpl Al Folk – 2nd left, followed by the USAF cargo master, Cpl Geo Loewen, Sgt Chuck Gibson and me (Pte Latham Rice). Cpl McDougall was in the driver's seat. Perhaps someone will recognize the chap on the left who I think we called "Willie".
